

Identification Badge Policy

Your identification badge is very important. It identifies you as a Sprouts team member and is used by non-exempt team members for timekeeping to swipe in and out at the beginning and ending of your work schedule and meal periods. All team members need to wear their name badge in a highly visible place at all times while on duty. For Store team members, the badge should be worn on the right side of your shirt near your collar. If you lose your badge, report it to your supervisor or manager immediately.
