"NEW FOR YOU" ITEMS!

PATAGONIA PROVISIONS

Patagonia Provisions makes their nutritious, high-fiber organic pasta with just two ingredients: durum wheat flour & flour from Kernza®, a wheat-like perennial. Both are 100% whole grain. That gives the pasta a high fiber content (25% Daily Value). Bronze dies create a rough surface that allows sauces to cling, adding even more flavor to your pasta. This is the first ever Regenerative Organic Certified® pasta. This certification is the world's most rigorous standard for agriculture.

PEAK STATE WHOLE BEAN COFFEE

Peak State's whole bean coffee infusion process was developed to solve the mushroom coffee-taste problem. It is the world's first whole bean coffee with adaptogenic mushrooms for daily wellness. Highest quality coffee, low acid on the gut, and health-infused for your brain, immunity, & stress. Peak State sources the most sustainable coffee possible and donates 1% of all sales back to environmental conservation.

STARWALKER ORGANIC FARMS

At StarWalker Organic Farms, they are living the dream of sustainable farming, continually innovating and expanding to meet the needs of their customers and the planet. Their journey is one of dedication, hard work, and an unwavering belief in the power of regenerative agriculture to make a positive impact on the world. Their organic beef jerky is made from certified organic, grass-fed beef. This is the first ever regenerative organic certified jerky! Elevate your protein with clean, nutritious and delicious snacks you can trust.

SUPPLIER SPOTLIGHT

PATAGONIA PROVISIONS

Patagonia Provisions was founded for one reason: to make delicious, nutritious foods that helps fight the environmental crisis. How? By farming and fishing in ways that regenerate and protect our planet. Their business gives back to the earth in other ways, too, particularly through the 1% for the Planet initiative and our work as a Certified B Corp. Their organic crackers are made with Regenerative Organic Certified wheat from Washington state.
